## IT'S IN OUR

NATURE

Here at Julien, we've been cooking up a storm since 1946 We've become masters in the art of perfectly designing professional kitchens.

Today, our outstanding reputation precedes us throughout North America, where our expertise has become an essential fool for many world-renowned chefs.
n 2003, Home Refinements by Julien was born out of the desire to bring our expertise in designing and creating professional kitchens to the residential market. The outcome: a fusion of style and functionality that embodies the quality of a professional brand.

## CUSTOMIZED TO IMPRESS

With Home Refinements, you have the freedom to unleash your imagination. Through our Signature program, we can create a wide range of custom stainless steel items made to measure for you. Handcrafted in our workshops, our Signature products will perfectly fit your creative style and needs. You are the designer!

Our expertise enables us to go beyond what the marke offers. If your needs are more specific, our Signature sinks offer you the opportunity to further personalize your projects. Our selection will meet your wildest needs thanks to the wide range of possibilities offered by our technology!

## Signature products forms

## UNMATCHED STAIILESS STEEL

Sixteen-gauge stainless steel is thicker and more resistant than normal industry standards. Because of its antibacterial and non-corrosive properties, it is a staple in the restaurant industry. For all thes reasons, it is the only material we use to design our stainless steel sinks. Bent, welded and polished by hand, our products deliver quality worthy of the finest chefs.

Thickness chart
$16 \mathrm{ga}=1.5 \mathrm{~mm}\left(0.0595{ }^{\prime}\right)$
$18 \mathrm{ga}=1.2 \mathrm{~mm}\left(0.0480^{\prime \prime}\right)$
$20 \mathrm{ga}=0.9 \mathrm{~mm}\left(0.0355^{\prime \prime}\right)$
$22 \mathrm{ga}=0.9 \mathrm{~mm}\left(0.0355^{\prime \prime}\right)$

## DIFFERENT INSTALLATION METHODS

## STANDARD INSTALLATIONS

There are many ways to install a sink! The ones outlined in this section are the recommended standard installations by Julien for optimal results and to ensure the proper use of our sink accessories.

When choosing a sink, it is important to carefully consider the installation method. It deserves close attention as it affects the bok and allows you to take advantage of all the possibilities by incorporating additional and interesting accessory options.

Making the right choices when it comes to major desig decisions will take your design to the next level and give you the kitchen of your dreams

UNDERMOUNT OVERHANG 1/8"
This installation provides a $1 / 8^{\prime \prime}(3 \mathrm{~mm})$ overhang of the countertop over the flange of the bowl and matches the cut-out provided over the flange of the bowl and matches the cut-out provided
with your sink. All our undermount sinks are designed for a $1 / 8$ overhang installation with the exception of the SmartStation REV10 collection. Our standard installations will guarantee a perfect fit with our sink accessories.

UNDERMOUNT REVEAL FOR SMARTSTATION REV10
The default installation for our SmartStation REV10 sinks leaves a positive reveal of $3 / 8^{\prime \prime}(10 \mathrm{~mm})$ on the front and back of the sink and a $1 / 8$ ( 3 mm ) overhang on the sides. This installation lets you place your sink accessories on the exposed flange, allowing the
countertop to act as a stopper for the accessories. Our standar installations will guarantee a perfect fit with our sink accessories.

## À LA CARTE INSTALLATIONS

Some À la Carte options need special attention because they require installations that differ from those usually recommended. Please note that no cut-out template is provided for À la Carte sinks.

Choosing the REV option will extend the flanges of $34^{\prime \prime}$ at the front and back of the sink. During the installation, a positive reveal of $3 / 4^{\prime \prime}(19 \mathrm{~mm})$ on the front and back of the sink must be created and we recommend $1 / 8$ " ( 3 mm ) overhang on the sides. This option is necessary if you intend to use your sink's top flange as a accessory rail. It can also be added to any of our sinks that were originally designed for a standard $1 / 8^{\prime \prime}$ overhang installation.
"Option not available for SmartStation and Social orner REV10 sinks that
are arready yeveal installed.
No cut-out template is provided for $A l a C$ Carte and Signature sinks.
Confirm that your cabinet size will accommodate the how and farcet nstalalation.

## TOPMOUNT

For those who want to replace a sink without changing their countertop, the topmount installation option is ideal. You have a laminate countertop? If so, we recommend this installation.
This option is available for the majority of our Home Refinements stainless steel sinks. Please note that no cut-out template is provided with A la Carte sinks.

## A UNIQUE CREATION

With the A la Carte options, you can transform any standard kitchen sink into a unique and highly functional water source

This exclusive concept lets you personalize a sink with the options listed in this section. The process is simple: first, choose a aitchens sink
from rom our stainless steel sink collections and personalize it by adding one or more options to customize t win features you woutant ting
standard bowl. All our customized A A la Carte sinks are CSA certified

## INSTALLATION TYPE

By default, all kitchen sinks in our standard collections are
By default, all kitchen sinks in our standard collections are designed for undermount instalation. With this option, you the following alternatives:

## UNDERMOUNT WITH APRON

Choosing a sink with an apron showcases the elegance of stainless steel.

## Flat (UAF)

The undermount sink with a flat apron is a modern version of the farmhouse-style sink.

Curved (UAC)
Adding a country feel is as simple as installing an undermount sink with a curved apron.

## TOPMOUNT (TF)

A topmount installation model is perfect if you have a laminate wood or ceramic countertop, or if you want to replace your sink without changing your stone countertop. These models pasomat $3 / 4^{\prime \prime}$ orna the three other sides of the sink.

## UNDERMOUNT REVEAL OPTION (REV)

An additional $3 / 4^{\prime \prime}$ ( 19 mm ) of material to the front and back flanges allows our sinks to be installed with a $3 / 4^{\prime \prime}$ ( 19 mm ) positive reveal. This exposed upper flange will serve as a rail for your accessories.

## HOLE(S) FOR FAUCET AND ACCESSORIES

## ADA COMPLIANCE

Topmount or flushmount models are equipped with a 3" wide rear platform for faucet and accessories, and by default, the hole is centered (HP3). If you want a different hole configuration,you can determine the number and layoutof the holes needed.

Far left (HP1)
The center of HP1 is 3 " from the inner left wall of the sink.

## Center left (HP2)

The center of HP2 is 4" from the center of HP3.
Center (HP3)
The center of the bowl. If you select a double bowl sink, this hole will be aligned with the divider. Default hole position.

Center right (HP4)
The center of HP4 is 4" from the center of HP3.

## Far right (HP5)

The center of HP5 is $3^{\prime \prime}$ from the inner right wall of the sink.

## DESCRIPTION ${ }^{(1)}$

OPTION

| Far left hole | HP1 |
| :--- | ---: |
| Center left hole | HP2 |
| Center hole | HP3 |
| Center right hole | HP4 |
| Far right hole | HP5 |

ADA compliant sinks are designed to make their use easier, ADA compliant sins are designed to make wit use easier, more practical and comfortable for people with disabilities or
limited mobility. By choosing this option, your bow(s) depth becomes $51 / 2$ " and it leaves enough space underneath to allow for knee clearance.

 bowls II the case of double bowl sinks with a 9 " wide bow at the right or at
the lett, HP or t HP5 may not be avialable.

## DIVIDER

For double bowl sinks, a standard divider is full height and 1 f wide. If you would prefer something different, we offer three alternative types of dividers, each with its own specific functions.

## " wide, 1 " from the top of the bowl (DV1)

This divider is designed to avoid spills because the water will drain into the other bowl before overflowing onto the counter.

## $1^{1 "}$ wide, $3^{" 1}$ from the top of the bowl (DV2)

This divider is perfect for washing large pots and pans because their handles will overhang into the other bowl. This type of divider makes going from one bowl to the other an easy transition

## $4^{\text {" }}$ wide, $3^{\text {" from the top of the bow (DV3) }}$

This divider provides a resting place for pans that are very hot or being filled with water directly from the faucet. This type of divider makes going from one bowl to the other an easy transition.

## BUILT-IN DRAINBOARD

Designed primarily to dry dishes without cluttering up the counter, the built-in drainboard can also be used as a work surface for cooking and cleaning. The drainboard is to the front-to-back dimension of the bowl.

12" wide, left side (DB112)
18" wide, left side (DB118)
(2)

12" wide, right side (DB212)
18 " wide, right side (DB218)
24" wide, right side (DB224)

|  |  |  |
| :--- | :--- | :--- |
| DESCRIPTION | WIDTH | OPTION |
| Left built-in drainboard | $12^{\prime \prime}$ | DB112 |
|  | $18^{\prime \prime}$ | DB118 |

## BUILT-IN DRAWER

A drawer built into the side of the bowl is the perfect place for storing small everyday cleaning items like brushes and scouring pads. The inside dimension, front to back, is 12 It is always installed 13/4 " from the top of the bowl.

Left wall (DW1)
Drawer in the left inner wall of the bowl
Right wall (DW2)
Drawer in the right inner wall of the bowl

Right built-in drawer

[^0]Whenthe ADA opionis selected. itis not oossisbe to addd abilitindrawe.

## POSITION OF THE DRAIN(S)

This option lets you choose the drain position in the bowl
This option lets you choose the drain position in the bowl. By default, the drain is in the rear center of the bow (DP2)
This is the position recommended by Julien to maximize under-cabinet storage space and the flat surface area available at the bottom of the bowl. However, moving the drain to the following locations, while altering the style, will not sacrifice these benefits

## CUSTOM GRIDS

## How to order a custom grid based on a customized

 drain position1. Choose the grid model that fits the sink on which the drain position has been changed
2. Add the drain position code after the grid model number.
Separate with a dash.

## EFFORTLESS <br> BEAUTY

Just round enough to make cleaning a breeze while still maintaining contemporary lines, the J7 sink collection
achieves a perfect balance of form and function. A versatile
design that is perfect for both minimalist and classic décors.
The kitchen sinks in this collection can be configured with the
A la Carte options.

## - Handcrafted in Canada

- Slightly rounded corners [7mm]
- Commercial quality stainless steel - 16 ga thickness

Corrosion resistant material - 304 series ( $18 / 10$ )
Environmentally friendly product, $100 \%$ recyclable

- Elegant no. 4 brushed finish that matches the appliances

Highly efficient sound deadening pads

- Practical flat sink bottom and straight bowl sides that maximize available space in the bowl

Stylish and functional bowl bottom grooves that facilitate water drainage
Rear 31/2" drain placement - For bar sinks, please refer to the specsheets for drain sizes and placement

- Mounting hardware and cutout template included Included

Certifications: ASME A112.19.3, CSA B45.0, CSA B45.4

## UTILITY SINKS

The sink of choice for a professionnal kitchen, the Classic collection is exactly that. Perfectly rounded corners that are a breeze to clean and a simple, thoughtful design that blends seamlessly with any kitchen worthy of the greatest chef.

## CLASSIC

- Handcrafted in Canada
- Perfectly rounded corners [29mm]

Commercial quality stainless steel -16 ga thickness
Corrosion resistant material - 304 series (18/10)
Environmentally friendly product, $100 \%$ recyclable

- Elegant no. 4 brushed finish that matches the appliances

Highly efficient sound deadening pads

- Practical flat sink bottom and straight bowl sides that maximize available space in the bowl

Stylish and functional bowl bottom grooves that facilitate water drainage
Rear $31 / 2^{\prime \prime}$ drain placement - For bar sinks, please refer to the specsheets for drain sizes and placement
Mounting hardware and cutout template included Included
Certifications: ASME A112.19.3, CSA B45.0, CSA B45.4

UNDERMOUNT OVERHANG 1/8" INSTALLATION

## AGELESS, PEERLESS, FIRECLAY

Perfectly smooth and strong. Our firing process produces topquality sinks that are simply beautiful to behold. And because
it's always nice to be able to change your mind, we offer two It's always nice to be able to change your mind, we offer two designs on the same product: a flat apron for a contemporary their integrated accessory ledge, the Fira sinks are true workstations whose undeniable functionality is only equalled by the refinement of the accessory line that complements them.

## FIRA

# Designed in Canada, handcrafted in Italy 

Slightly rounded corners [10mm]
Reversible apron front design: flat or Shaker style
Deep 10" bowl and 3/4" thick walls for optimized work space

- Product dimensional variability $\pm 3 / 16$ "due to manufacturing proces

Made of fireclay and glazed on all sides, white gloss finish
Off set center or center 31/2" drain placement
Sloped bottom for maximized drainage
Waste disposal unit compatible, recommended to confirm waste disposal or drain maximal thickness specifications.

No template provided, recommended to have the sink on hand for final sizing of cabinet and countertop
Certifications: ASME A112.19.2/CSA B45.
